SUMMARY

Marketer who brings **AI tools from personal use into real team workflows**. I use AI across marketing — **content, images, video and campaign analysis** — and I build **automations that cut manual work**: social leads → AI lead sorting → personal follow-up → email → tracking. I research and test new AI tools, choose what actually works for each team, and **train people to use them** (I trained a full marketing department on AI methods). Systems thinker and hands-on builder. Good English — **C2 Proficient (EF SET 86/100)**. Based in Ho Chi Minh City.

WHAT I'VE BUILT & AUTOMATED

- **AI Marketing Agent** — reads a business, its competitors and market, then gives back a full marketing funnel, campaign plan and first growth steps.
- **Automated lead workflow** — finds and sorts leads, writes personal messages, sends email follow-ups and tracks results (Facebook lead → CRM → AI sorting → follow-up), with no manual steps.
- **Trained a full marketing team on AI methods**, making the team faster and raising output.
